

H1 - Control Systems

Control Panels & Motor Control Centres

Automatic control of process plant.

PROCESS INPUT:

Process control requirements.

PROCESS OUTPUT:

Effective control and monitoring.

BY-PRODUCT PRODUCED:

N/A.

SERVICES REQUIRED:

N/A.

CAPACITY RANGE:

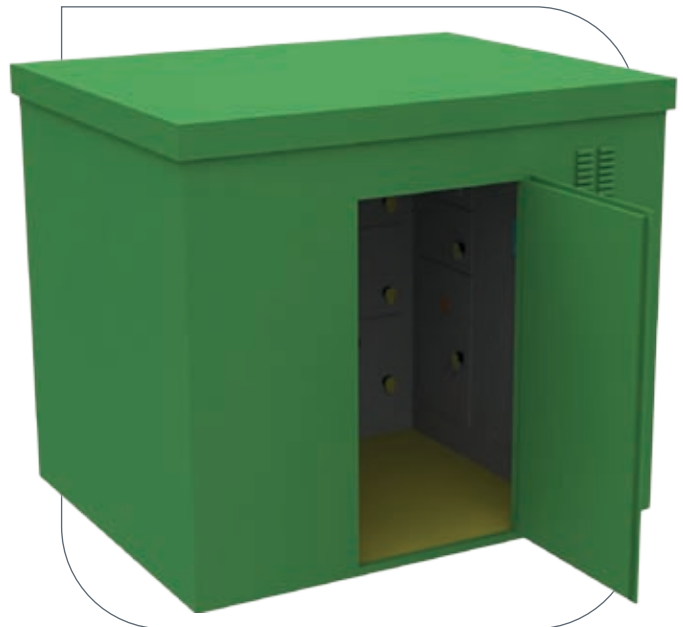

Single or Multi Compartment.

TYPICAL ELECTRIC MOTOR DRIVE SIZES:

Controlling 0.25 to 15kW motors.

Control systems to complement Haigh product range.

Utilising motor control centres or single control panel to provide effective and efficient control of equipment and process plant. Various forms of instrumentation can be used, ultrasonic, level probes, pressure transducers etc to best suit the application.

“Control systems to complement Haigh product range.”
